Technical Skills

Frontend Development:
- Angular 13+, TypeScript, RxJS, Redux (NgRx), HTML5, CSS3, SCSS, Bootstrap
- Angular Material, PrimeNG, D3.js, Plotly.js, Flex Layout, Lodash, ESLint/TSlint
- Blazor and Razor Components, ASP.NET MVC
- Familiar with React/Next.js

Backend Development:
- .NET Framework 4+, .NET Core 6+, Web API, Entity Framework Core
- Swagger/OpenAPI
- Express.js (JavaScript/Typescript)

Databases:
- SQL Server (2012–2022), MySQL, Stored Procedures, Query Optimization, Indexing
- Familiar with MongoDB, Redis (Caching, Session Storage Basic)

Cloud:
- Azure (App Services, Storage, Functions, Key Vault, Service Bus)
- Docker, Kubernetes, GitHub Actions, CI/CD Pipelines (YAML)
- Familiar with TeamCity, Jenkins

Unit Testing:
- Karma, Jasmine, NUnit, Familiar with Jest

Tools & Concepts:
- SOLID, OOPS, REST APIs, Agile (Scrum), Test-Driven Development (TDD)
- MVC, Clean Architecture, Dependency Injection, N-Tier Architecture, Repository Pattern
- OAuth2, Token-Based Authentication, Middleware Pipelines, Containerization

Education

Master of Professional Studies, Data Analytics   Sept 2023 – Mar 2025

Northeastern University, Toronto, Canada │ GPA: 3.8 / 4

Bachelor of Engineering, Computer Engineering   May 2010 – Jun 2014

Gujarat Technological University, Ahmedabad, India │ CGPA: 7.2 / 10

Employment history

Full Stack Software Engineer at LTIMindtree Limited in Mumbai   May 2021 – Aug 2023
- Led and developed critical enterprise applications using Angular/TypeScript and SQL Server that enabled teams to make operational decisions faster.
- Led code reviews and championed automation initiatives, integrating end-to-end testing pipelines that reduced post-release issues.
- Optimized SQL Server performance by tuning queries and redesigning database schemas, cutting report generation times.
- Supported development of employee management modules and UI dashboards.
- Refactored legacy services for maintainability and performance enhancement.
- Angular 13, .NET, SQL Server, Oracle, PI, Azure, Matlab

Senior Software Engineer at ECL Finance Limited in Mumbai (Client)   Jul 2018 – May 2021
